

- Robust, extremely durable steel pipe construction
- Reliable drive via powerful electrical motor with gear box
- Easily handles gradients up to 40°
- Short set-up times – can be easily and quickly installed by two workers
- Immediately operational after connection of the 230 volt supply
- Up to three conveyor belts can be connected via one supply cable; integrated connection cables with automatic extension
- Simple cleaning and maintenance
- Belt can be easily and quickly changed by a single person
- PVC belt with ribs as standard equipment
- V-guide for optimal intake of material to be transported
- Libelt 600 can be easily folded up for transport
- Multiple forklift brackets facilitate fast, convenient transport of the belts

Examples of applications:

Transport of construction materials, demolition work, building renovation, gardening and landscaping work, tunnel and sewer work, mining, excavation, industrial and agricultural transport of bulk materials
