

VIBRATION RANGE

VIB-BAR E-BATT

Battery-powered portable vibrator

The VIB-BAR E-BATT is a very efficient electric handheld vibrator, thanks to its battery powered design.

- The set includes carrying strap, charger and battery
- Ideal for heavy-duty jobs
- The poker is built in durable & resistant materials
- Battery charge indicator display
- Outer part of the transmission reinforced with metal strip

+ Cordless

It doesn't require an electrical connection because it is battery-powered, which increases construction site safety by removing the need for cords.

+ Lightness

Its design makes it compact and lightweight. Its transmission is easily disassembled, which allows for easier transport.

+ Eco-Friendly

Eco-Friendly product that reduces environmental impact. Produces zero emissions and has low noise levels.

+ Zero maintenance

Due to its electronic conversion system, it has no parts that require maintenance or replacement.
