

Ciocane SIMPLEX cu capete moi • TPE-soft / Rubber composition with "stand-up"; with aluminium housing and high-quality wooden handle

3112.260

Descrierea produsului

The SIMPLEX series 3112 is available with the popular insert combination of TPE-soft / rubber composition.

The blue TPE-soft insert (series 3201) is the softest insert of the SIMPLEX line and offers strong impact cushioning for work requiring a light touch. Unlike conventional rubber mallets, it does not leave behind any undesired black marring.

Boasting an ingenious shape, the rubber insert with "stand-up" (3202.2) allows the hammer to stand securely on its head and reduces the need to bend over, making it possible to work in a much more ergonomic and back-friendly manner. Ultra low-wear, impact cushioning and odourless, the proven rubber blend offers a much longer service life than a conventional rubber hammer.

The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force. This makes it a cinch to process materials that break easily.

Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted.

This translates to savings in both money and resources.

This version is available in size D60mm.

D60mm and D80mm are also available with cast iron housing (art. no. 3012.260 and 3012.280).

- SIMPLEX soft-face mallet with the insert combination of TPE-soft (blue, soft, non-marring) / rubber insert with "stand-up" (3202.260) for back-friendly working with less bending over.
- The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force (ideal of work on materials that break easily).
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in size D60mm.

Domeniul de aplicații

Poziționarea pieselor ușoare/fragile, fără urme, dulgherie, asamblare mobilier, construcția de uși, prototipuri

Material

Mâner

- Lemn

Insertia 1

- TPE-moale, albastru
- Nu lasă urme
- Moale

Insertia 2

- Cauciuc compozit, negru
- Medium tare
- amortizare de impact
- Fără miros
- Uzură scăzută

Carcasă

- AluminIU Al
