

Ciocane SIMPLEX cu capete moi • TPE-soft / TPE-mid; with aluminium housing and high quality, extra short wooden handle

3113.062

Descrierea produsului

This SIMPLEX soft-face mallet comes with an extra short handle. The compact design keeps the end of the handle from hitting the ground - for instance during paving work.

The SIMPLEX series 3113 is available with the insert combination of TPE-soft / TPE-mid. Both inserts are thermoplastic elastomers and do not leave behind any colour marring or - unlike a conventional rubber mallet - any undesired black marring.

The blue TPE-soft insert (series 3201) is the softest insert of the SIMPLEX line and offers strong impact cushioning for work requiring a light touch. Unlike conventional rubber mallets, it does not leave behind any undesired black marring.

The grey, medium hard TPE-mid insert (series 3203) allows for a more powerful impact force that is comparable to that of the rubber composition insert (series 3202).

The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force. This prevents fragile slabs from being damaged during installation. It also makes the soft-face mallet a very lightweight tool that is easy to carry around. The light weight is easy on tendons and joints.

Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources.

Product features:

- SIMPLEX soft-face mallet with the insert combination of TPE-soft (blue, soft, non-marring) / TPE-mid (grey, medium hard, no-marring).
- Extra short handle, end of handle not hitting the ground.
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force (ideal of work on materials that break easily).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Extra short handle available in size D60mm.

Domeniul de aplicații

Grădinarit și peisagistică, pavae, montare borduri, zidărie și construcții de scări, construcții garduri, construcția de schele, lucrări de dulgherie, construcția de case din prefabricate, lucrări de dulgherie, lucrări de reparații și întreținere

Material

Mâner

- Lemn

Insertia 1

- TPE-moale, albastru
- Nu lasă urme
- Moale

Insertia 2

- TPE-mediu, gri
- Nu lasă urme
- Medium tare

Carcasă

- Aluminiu Al
